

DZR'S POINT MARK'S SQUEEZE THE

Date of Birth: 05/03/2020 Registration 1: 286538 Breeder: DCC Owner: D&K

It only takes one glace at this girl to figure out why we are so excited to see her developing into something special. Charmin passed 40 inches tip-to-tip at 15 months. She's got extreme horn from her sire, an excellent disposition, and holds herself very well for a heifer. We wish she had more color but you can't have it all.
